CHINESE NOTES.

"A "competent court of law" is perhaps well expressed in Chinese by the words 刑名衙門. A "British Court" would be these four words preceded by 55 . In China, however, the additional words 有同 must precede the four words, because no court is compotent but an executive [有司] court. In England the judicial authority is independent of the executive.

THE P. & O. steamer Lombardy, which takes

down the next English mail, sustained some damage, about a couple of months since by touching on a rock on Morrison Island on her voyage hence to Shanghal. She arrived at Shanghal on 27th February, and went into Dook on the 10th March. The Shanghal Daily News contains an account of the somewhat risky process of undocking this big ship in the tidal sweep of the Shaughai River. Of the repairs the News says :-"The stem was found to be broken, and the new portion affixed began at about the 15-feet line and went back about twelve 'frames.' It was all in one piece and weighed about two tons. Nine frames' away and at least a dozen more were broken. All these of course have been replaced. Altogether the total weight of iron used in the repairs is estimated at about seven tons."

A bottle of polson was found on the prisoner, which, he said, myself he would have awallowed, had he had time to escape arrest,"

H. M. S. Atalania, which is referred to in Reuter's telegram published elsewhere, is described in the Navy List as a "Lih rate," of 958 tone, used as a training ship for ordinary seamen. She was commissioned at Devonport on 17th Sept. 187d; and she appears, under the heading of vessels engaged in "particular service," among which are the Tamar, Orontes, Himalaya, &co. CORRESPONDENCE.

THE LAST OF THE TONQUINESE

QUESTIONS. To the Editor of the " CHINA MAIL,"

Sin,-"Observer" having developed into Mr Pène Siefert, late Editor of the notorious Gory of Saigon, those who know him and his antecedents, will be able to appreciate his distribes against the French Consuls in of wrought iron (5 in. × 3h in.) were broken Tonking. I shall therefore, not trespass on-each side. Four-iron plates were carried further on your space than is necessary to beg of him for the future to have the good taste, when the cacoether scribendi seizes him not to mention names of people, when they are not at hand to defend themselves. His comparison of the Consul in Hanoi to a horse in a riding-school is decidedly low and far-

What a pity that the Consuls did not take M. Pene into their confidence and initiate THE 'cute mercantile gentleman to whom him into their doings, past present and to come! They might have profited by his vast experience and secured for themselves a certainty of remaining in office; now, I am afraid their stay in office will be limited, as they have incurred his displeasure. of a certain firm" do ; but, not waiting for the signature, he goes on to relate some cock-and-bull story of busuccessful revolutions. so positively that I am not a Frenchman and that I have never resided in Tongking Perhaps he only considers as Frenchmen, those who are of his own political opinion. As the good people of Hongkong cannot possibly take any interest in Tongking or its affairs, I must apologize for my share of this "tempest in a tea-pot," and as I certainly dread a personal encounter with a man of M. THE R. E. D. CONTRACT. To the Editor of the " OHIBA MAIL."

Sin,-Some short time ago an advertisement in your paper invited tenders for the execution of such work and repairs, and for the supply of such material, as might be required to the War Department buildings at Hongkong. By the terms of the advertisement tenderers were required to furnish testimonials from former employers. Tenders were sent in to the Commissariat office from several contractors, one of which was a European firm of considerable standing and reputation, but the edict has gone forth, and the mighty ones sitting in conclaye over the claims to Government patronage have decided in favor of a firm of which Mr Hing Kee is the chief. Mr Hing Kee enjoys an excellent reputation as a purveyor, but I question his know-ledge of builders' work, which must necessarily be of the most scant proportion. He has long been the annual contractor for supplies to the Commissariat Department, and has no doubt given satisfaction to the officers whose province it was to superintend that branch of the Public Service, but how he is going to satisfactorily carry out a trienmial contract for such work as is required by the Royal Engineer Department I fail to see. This does not, of course, mean that the Board that devided the contract was not fully satisfied. No doubt the "testimonials from former employers aubmitted by him I feel much gratitude to those who like with his tender were found to be of a satisfactory character, and it is to be hoped there is no danger of the new Military Sanitarium being erected before the casement has been built, or the foundation laid, as a

professional gentleman recently said he could

THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries or China and Japan, has induced the publish-aimilar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and sons passing through the City, and Queries on the Far East, is issued at intervals of two months, each number con-taining about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such extra matter. The subscription is fixed at \$6.50 postage

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History,
Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c.,

The Clock Tower, Queen's Road Cenof China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East' generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number.
Original contributions in Chinese, Latin, French, German, Spanish, Italian or Poron Shareholders' Capital, all the Profits tuguere, are admissible. Endeavours of the Underwriting Business will be are made to present a resume in each

The China Review for July and August, 1875, is at hand. It says that forty-two In accordance with the Company's Articles. essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what acholars are ascertaining about China. The lecture on C inese Poetry in this volume is slone worth the price of the Keview. Address China Review, Hongkong .- Northern

Christian Advocate (U.S.) Trubner's Or' neal Record contains the following notice of the China Review :- "This is the title or a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as some respects a continuation of Notes and Queries on China and Japan, the extraction of which useful seri 'a year or two ago has been much rescetted in Europe as well en in Ch is. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of inform ation, rendering some such channel of pub -"city as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign cons lrv services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the nist number of the Review by papers Fighly creditable to their respective authors. In paper on Dr. Leggo's She King, by the lars, Optical Instruments, Mordan's Rev. E. J. Eitel, to which the place of Pencil-cases, &c .- John Noble, agent honour is deservedly given, an excellent for Negretti & Zambra. summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays TIHE Undersigned are prepared to grant are marked by both accuracy and froshness Policies against Fire to the extent to of style; and an account of the career of Arcade. \$45,000 on Buildings, or on Goods stored the Chriese poet-statesman of the eleventh contury, Su Tung-p'o, by M . E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the least, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chines, subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo mag: 10.
